## **COME AND WORK WITH US IN STOCKHOLM!**

Are you looking for the most interesting projects, the biggest challenges, and the funniest tasks? Itasca needs more staff at our office in Stockholm (Kista) where we work with rock mechanics in all forms. We literally want to reach deeper - it may be in tunnels in big cities, rock excavations in the Nordic countries, mines in the whole world and much more! **Right now, we need to strengthen our office in Stockholm with a rock mechanics engineer.** We are looking for you with a genuine interest in rock mechanics and modeling, with working proficiency in Swedish and English.

Does this sound interesting? Send your application to:

Jonny Sjöberg, CEO Itasca Consultants AB

Itasca is an international company with 16 offices in 13 countries worldwide. Itasca Consultants AB is the Swedish subsidiary of Itasca International Inc. We do consultancy work in the mining and infrastructure industry with a focus on rock mechanics, numerical model analysis, tunnel design, and mine design. We have customers and projects in Sweden, Scandinavia, Europe and the rest of the world! Our Swedish offices are located in Luleå and Kista where we work with interesting projects at depth!
